

Individuals with Disabilities

I. Purpose:

To affirm and describe Merit Network's (Merit) commitment to the principles of equal employment opportunities for individuals with disabilities to set forth the action to be taken by Merit and its employees, concerning employment opportunities for qualified individuals with disabilities and to provide for implementation, self-monitoring and a measure for achievement through a comprehensive affirmative action program.

II. General Policy of Merit –Employment of Individuals with Disabilities:

Merit will not discriminate in its employment practices against applicants who have a disability. Placement will be commensurate with ability to perform assigned work. Employees with disabilities will receive the same regular compensation as those with no disabilities for like work.

III. Specific Policy – Employment:

Merit will not discriminate against any employee or applicant for employment because of disability in regard to any position for which the employee or applicant for employment is qualified. A "disability" is a physical or mental impairment that substantially limits one or more major life activities, a record of having such an impairment, or being regarded as having one even if the person does not actually have the condition. A "qualified individual with a disability" is a person with a disability who meets the skill, experience, education and other job-related requirements and who, with or without reasonable accommodation, can perform the essential functions of the job.

Merit, to ensure its commitment to equal employment opportunities for individuals with disabilities, will take affirmative action to employ, advance in employment, and otherwise treat known qualified individuals with disabilities without discrimination based upon their disability in all employment practices, including but not limited to the following: application, testing, hiring, work assignments, evaluation, promotion, transfer, disciplinary actions, recruitment or recruitment advertising, layoff/recall, termination or demotion, rates of pay or other forms of compensation, and selection for training, including apprenticeships.

Merit will provide, upon request, reasonable accommodation to employees with disabilities, if that is needed to enable them to perform their job duties. Employees may request such accommodation by contacting their immediate supervisor.

IV. Dissemination of Policy:

To ensure understanding, acceptance and support among the executives, managers, supervisors, and all other employees, and to encourage such persons to take the necessary action to assist Merit in meeting its obligations to individuals with disabilities, Merit will communicate information on its nondiscrimination policy and its affirmative action program on a periodic basis to all Merit employees through internal communication and other media. Merit will post its nondiscrimination/affirmative action policy on appropriate Merit bulletin boards.

Merit will communicate its obligation and commitment to engage in affirmative action efforts to employ qualified individuals with disabilities to all executive, managerial and supervisory personnel and will give its obligation under all applicable laws and regulations high priority at appropriate managerial, supervisory, and special employee meetings, and at all employee orientation programs. Periodically, it will be an item on the agendas of Merit's Board, the executive officers and other managerial and supervisory meetings.

3.0 Merit will reproduce this policy in its policies section of its Web site and internally on the Merit Internal Web.

4.0 Merit publications, collateral material and Web site, employee handbooks or similar publications with pictures will include individuals with disabilities.

5.0 All Merit publications relating to employment and advertisements for employment opportunity shall include the phrase "Merit Network is an equal opportunity/affirmative action employer." Pictures of employees used in employment advertising will include individuals with disabilities.

V. Implementation Responsibility:

A. Executive Officers

1.0 Ultimate responsibility for the implementation of this policy and Merit's affirmative action programs rests with the Executive Officers (the President and the Vice-Presidents). Each Executive Officer is responsible for the administration of this policy and Merit's affirmative action programs within his/her area of responsibility.

B. Directors and Managers

1.0 Each Director is responsible for authorizing expenditures for reasonable accommodations needed by employees with disabilities.

Merit is responsible for compliance with the Americans with Disabilities Act (ADA), as well as other nondiscrimination/affirmative action legislation, including the provision of funds to make reasonable accommodations for individuals with disabilities.

C. EEO Compliance Officer

1.0 The EEO Compliance Officer is responsible for directing and coordinating Merit's affirmative action programs. He or she will provide guidance to management to:

- Ensure that appropriate accommodations are made for qualified individuals with disabilities.
- Identify problem areas and make specific recommendations to overcome them.
- Review and update programs to provide assistance to applicants and employees with disabilities. Monitor auditing and reporting systems.
- Provide advice, counsel and assistance on all matters regarding equal opportunity, accommodations, accessibility for individuals with disabilities.

Facilitate the gathering, consolidation, analysis and preparation of any required reports.

2.0 The EEO Compliance Officer will coordinate Merit's programs and responsibilities to assure compliance with the ADA and other federal and state laws and regulations pertaining to individuals with disabilities. In order to carry out this responsibility the EEO Compliance Officer shall:

- Provide information, advice and assistance to departments to enable them to meet requirements related to individuals with disabilities.
- Develop and conduct educational materials and programs regarding the requirements of the ADA and other laws

pertinent to individuals with disabilities.

- Act as the central contact person for individuals with disabilities who allege noncompliance with the ADA.
- Maintain liaison with governmental agencies, officials and other organizations concerned with affirmative action programs and individuals with disabilities.

D. Human Resources Manager

1.0 The Human Resources Manager is responsible for assisting the EEO Compliance Officer in fulfilling their responsibilities, and specifically in reviewing the developing policies and practices that assure careful, thorough and systematic consideration of the job qualifications of employees and applicants with disabilities.

E. Other Supervisors and Managers

1.0 Every other member of supervision and management is responsible within his/her area of responsibility for conducting activities in a manner which will ensure compliance with this policy and the affirmative action programs.

VI. Recruitment:

Merit will not discriminate in its recruitment activities against a qualified applicant because of a disability.

All recruitment sources will be advised in writing of Merit's policy and commitment to equal employment opportunities for individuals with disabilities.

Merit will provide job postings in a variety of media, such as board postings and on line computer postings, so that information about open positions will be available to individuals with a wide range of disabilities. In addition, the EEO Compliance Officer or Human Resource Manager will provide special assistance in accessing job postings to individuals with disabilities who request it.

Merit will take positive steps to attract qualified individuals with disabilities not currently in the workforce. It will work closely with recruiting sources, such as the Ann Arbor Center for independent Living, the Michigan Employment Security Commission, Michigan Rehabilitation Services, Michigan Commission for the Blind and other vocational rehabilitation agencies or facilities, and social services organizations serving individuals with disabilities.

5.0 Merit will use the phrase, "Merit Network as an equal opportunity/affirmative action employer," on all recruiting, employment, and advertising publications.

6.0 Merit will strengthen and develop new recruiting sources from among those specializing in and/or oriented toward individuals with disabilities and maintain contact with other appropriate social service organizations, agencies, or facilities for such purposes as advice and technical assistance.

VII. Employment and Placement:

1.0 Qualified applicants with disabilities will be considered and placed for employment on the basis of their abilities. Reasonable accommodations will be provided upon request.

2.0 Selection for employment, training, or promotion will be on the basis of valid objective criteria and the ability to do assigned work.

Merit will provide specially-monitored, subsidized temporary employment placements for appropriately qualified individuals with disabilities on Long Term Disability. Upon successful completion, these individual placements may become regular. Merit will evaluate candidates, assist departments in making necessary accommodations, and monitor the employment experiences of such individuals who have disabilities. For individuals with other types of health-related leaves, rehabilitation services are also available to assist with counseling regarding self-management of medical conditions, worksite assessments, coordination of job search efforts, and coordination of job accommodations.

Merit may allow employees with disabilities to return to work in temporary accommodated positions while their conditions stabilize, in order to permit such employees to continue in the workforce and to maximize their abilities prior to a full release for a return to work, or to reduce the length of time between an on-the-job injury and a return to work for employees who are eligible for Worker's Compensation. However, permanent removal of an essential function of a position shall not be considered a reasonable accommodation. Executive management, directors and supervisors may authorize light duty positions, when practicable, which allow employees to continue working following an injury which has resulted in a disability.

Upon request, Merit will arrange for career counseling for employees with disabilities and for counseling about Merit job opportunities for applicants with disabilities.

Merit will maintain in confidence, to the extent required by applicable regulations, information provided by applicants or employees who identify themselves as having a disability.

VIII. Training:

1.0 Qualified applicants with disabilities will be considered and placed for training on the basis of their abilities. Reasonable accommodations will be provided upon request.

IX. Promotions, Demotions, Layoffs, Recalls and Transfers:

1.0 Promotions, demotions, layoffs, recalls, and transfers will be consistent with an employee's qualifications and service. Reasonable accommodation will be provided if necessary.

2.0 In some cases, transfer of an employee with a disability into a vacant Merit position for which he/she is qualified will constitute a reasonable accommodation. Reassignment may be made to a vacant Merit position which is at the same or lower pay grade as the position currently held by the employee. Whenever reassignment to a vacant Merit position is the only way in which an employee with a disability can be reasonably accommodated, the employee with a disability will be given priority for placement into that vacant Merit position.

X. Facilities and Activities:

1.0 Merit will make reasonable accommodation to the known limitations of a qualified employee or applicant with a disability. Accommodation can be provided in a variety of ways, such as eliminating architectural barriers in existing facilities and future construction, creating accessible parking, modifying job stations, altering work schedules, or restructuring a job by redistributing marginal job functions.

XI. Human Resource Policies:

1.0 Human Resource policies and practices, such as compensation and benefit programs, are the subject of periodic review to ensure that they are consistent with applicable and current legal requirements and that they are administered without regard to a qualified applicant's or employee's disability.

XII. Subcontractors:

1.0 All subcontractors on government contracts will be informed of Merit's commitments under relevant state and federal laws and regulations.

XIII. Reports and Records:

1.0 Merit will maintain, for a period not less than one year, records regarding complaints and action taken.

Issued: 07/01/12
