

INTERNET FOR K-12 EDUCATION

Merit's E-Rate eligible internet is the best connected and longest running regional network developed specifically for schools

Unlike commercial providers, Merit's quality of service and uptime are unmatched. Our fiber infrastructure provides upload speeds equal to download speeds and offers optional redundant connections to ensure the reliability of your connection.

With Merit Internet, you have the option to bundle with Merit Security Services such as Managed Firewall, DDoS protection and Community CISO consulting services.

Merit Internet provides the fastest, most reliable connection available for your faculty and students. Available with flexible pricing options and burst able bandwidth at speeds up to 100 Gbps.
